These two suspects have hit us 6 times stealing cartons of Marlboro & Newport's. They will come to the counter with a lot of grocery items off the sales floor then ask for cartons of Newport's and Marlboro. They will even show a credit card. They will then distract the employee or say they forgot something in their car and walk out with the cartons of cigarettes. If you see them in your store, please call the police immediately and reference the police report numbers below:
